***Language Acquisition in 2023.

The heightened levels of anxiety and depression that students face today have decreased second language acquisition abilities. Social and Emotional Learning (SEL) is a technique that maximizes student success and is well suited for language teaching. SEL methods foster student motivation, invigorate and engage multiple intelligences, and hasten language acquisition by incorporating all brain operations – thoughts, emotions, imagination, and predispositions.

29th May 2023, Wednesday, 5.30-7.00 pm, online (ClickMeeting), free of charge
